

This morning, the government confirmed that the **Canada Greener Homes Loan** will stop accepting *new applications* as of **October 1st, 2025**. If you've been considering solar — or already have a quote — **now is the time to move!**

Here's what you need to know:

- The loan offers up to **\$40,000 in interest-free financing** to make your solar project a reality
- To be accepted, **your energy audit and your application** must be submitted *before* the October 1st deadline
- Once the deadline passes, **no new applications will be accepted**

Let us simplify the process:

1. **Get Your Solar Quote** – Our experts will review your custom design with you, answer all your questions, and ensure you're confident moving forward.
2. **Book Your Energy Audit** – This required step comes next. We'll connect you with an auditor and guide you through the process.
3. **Submit Your Application** – Our team will support you so your application is ready before the October 1st deadline!

Yes, I want a quote!

Let's get started so your solar installation can qualify. **Reply to this email** or give us a call — we're ready when you are!
