

Watt's New

Solar updates, industry news, and more

Welcome back to Watt's New!

September is here, and there's been plenty happening at Solos Energy.

This month, we're taking you behind the scenes with a look at our team's day out at Myra Canyon, sharing a recent solar project, and taking a closer look at how battery storage can provide backup power when you need it most.

Behind the Scenes: Solos at Myra Canyon

This month, our team took a break from the office and headed out to **Myra Canyon** for a day of biking, fresh air, and time together.

With stunning Okanagan views, historic trestles, and plenty of time to catch up outside of work, it was a great opportunity to step away from the day-to-day and enjoy some time as a team.

Solar at Home: A 19 kW West Kelowna Installation

19 kW of solar power | 38 × 500W panels | BC Hydro

This West Kelowna home is now generating its own clean energy with a **19 kW solar system featuring 38 high-efficiency 500W panels.**

Installed on the home's low-slope **torch-on roof**, the system makes use of the available roof space while helping the homeowners generate more of their own electricity.

The project also included **additional electrical work and a sub-panel installation** to support the new solar system.

With beautiful views of the Okanagan, this project is a great example of what solar can look like right here in West Kelowna. 

Is My Home Right for Solar?

Not every home is the same, and several factors can affect how well a solar system will perform.

Roof orientation, available roof space, shading, and your home's electricity use all play a role in determining whether solar is a good fit.

A south-facing roof can be especially well suited to solar, but it's not the only option. Our team looks at your home's unique characteristics and energy needs to help determine what kind of system makes sense.

Curious whether your home could be a good candidate for solar?

We're happy to take a look.

Come Visit Us at a Fall HomeShow

We're heading to a few more Fall HomeShows this season, and we'd love to see you there!

If you're curious about solar, thinking about making the switch, or simply want to learn more, come say hello. We're always happy to have a chat and answer your questions.

Merritt Fall HomeShow

September 25–26

Merritt Civic Centre

Vernon Fall HomeShow

October 3 & 5

Kal Tire Place – North Arena

Kamloops Fall HomeShow

October 17–18

Sandman Centre

Thinking About Adding Solar To Your Home or Business?

Whether you're exploring solar for the first time or looking to learn more about the latest equipment options available, our team is always here and happy to help!

Okanagan: **250-258-8344**

Calgary: **587-299-3536**

That's a wrap!

Stay tuned for the next edition of Watt's New.

Get in touch

REFER & EARN!

- REFER A FRIEND, FAMILY MEMBER, OR COLLEAGUE TO SOLOS ENERGY USING OUR REFERRAL FORM
- THEY SIGN UP FOR A SOLAR SYSTEM WITH US AND GET INSTALLED
- ONCE THEIR SYSTEM IS SUCCESSFULLY INSTALLED, YOU EARN A \$300 REFERRAL FEE!

solosenergy.ca/REFERRAL-PROGRAM

We're here to help you make the switch to solar!

Have questions or ready to start your project? Give us a call:

Okanagan: [250-258-8344](tel:250-258-8344)

Calgary: [587-299-3536](tel:587-299-3536)
